

Application for customer-initiated testing

Today's date

Company information

Company	Contact person
Email	Phone

This application does not come with any guarantee of approval. Voyado reserves the right to deny, re-schedule, and/or redesign the test requested, if there is a risk of adverse effects to the business, or to other customers.

For further information, please see "Voyado Testing policies".

Send the application, and/or any questions to support@apptus.com

Contact for test

Please note that the contact must be reachable during the entire test.

Contact person (Name and Title)	Phone
Test start date	Test start time
Test end date	Test end time

Type of test

- Performance test Load test
 Stress test Penetration test/Security test

Environment to be tested

Prod Dev

Test scenario

What is the intention of the test?

What function(s) will be tested, and what outcome do you expect?

How will these functions be tested (method, intensity, and duration)?

Will this test be performed simultaneously with another test(s)?

Yes No

If "Yes", what test, and what do you hope to achieve in running them together instead of separately?

For Voyado personnel
